* See reconciliations to the nearest GAAP measure in pages 5-13.

"Our financial results for the first quarter demonstrate Garrett's flexible operating platform and global capabilities amid the novel coronavirus outbreak," said Olivier Rabiller, Garrett President and CEO. "Both of our production facilities in China have restarted operations and returned rapidly to full capacity after closing for a portion of the quarter due to the COVID-19 pandemic. We remain focused on taking aggressive measures in response to this unprecedented crisis with a priority on protecting the health and well-being of our employees and meeting our customer commitments. Last month, we fully drew down on our revolving credit facility to increase our financial flexibility and started the current quarter with \$658 million in total liquidity. We are also temporarily reducing pay for Garrett's senior leadership team by 20% and postponing future capital expenditures without impacting near-term programs. By actively managing our cost structure and preserving capital, we expect to generate significant cash savings for the year, and we are evaluating further steps to ensure the continuity of our operations. Garrett's positive business fundamentals remain intact and we will continue to calibrate production schedules in the near term and flex our cost structure to maintain our agility and strengthen our position for long-term success."

Results of Operations

Net sales for the first quarter of 2020 were \$745 million compared to \$835 million in the first quarter of 2019, a decrease of 10.8% (including a negative impact of 2.2% due to foreign currency translation). Net sales at constant currency decreased 8.5%. During the first quarter of 2020, Garrett's manufacturing facility in Wuhan, China was closed for six weeks and the company's plant in Shanghai, China experienced a material slowdown in the quarter due to the COVID-19 pandemic. Additionally, several manufacturing facilities in Europe and North America were closed or reduced production during the second half of March 2020 as a result of COVID-19.

Reported net sales in the first quarter for light vehicles OEM products decreased \$36 million due to lower diesel volumes, partially offset by higher gasoline volumes stemming from increased turbocharger penetration in gasoline engines and new product launches. Reported net sales for commercial vehicle OEM products and aftermarket products decreased \$31 million and \$18 million, respectively. Other products sales in the quarter declined \$5 million.

Cost of goods sold for the first quarter of 2020 was \$603 million versus \$639 million in the first quarter of 2019 primarily due to lower volumes

stemming from the impact of COVID-19. Research and development expenses in the quarter decreased to \$28 million from \$32 million in the first quarter of 2019.

Gross profit percentage for the first quarter of 2020 declined to 19.1% from 23.5% in the first quarter of 2019 primarily due to the unfavorable impacts from product mix and premium freight, partially offset by productivity gains net of lower volume leverage.

Selling, general and administrative (“SG&A”) expenses for the first quarter of 2020 totaled \$61 million versus \$60 million in the prior year period. As a percentage of net sales, SG&A for the quarter was 8.2% versus 7.2% in the first quarter of 2019.

Other expenses - net for the first quarter of 2020 declined to \$16 million from \$19 million in the first quarter of 2019. During the first quarter of 2020, the company recognized \$15 million in legal fees as part of its Indemnification and Reimbursement Agreement with Honeywell. Garrett also recognized \$1 million in Indemnification-related litigation fees for the first quarter of 2020.

Interest expense for both the first quarter of 2020 and first quarter of 2019 was \$16 million.

Net income for the first quarter of 2020 was \$52 million, or \$0.69 per basic share and \$0.68 per diluted share, compared to net income of \$73 million, or \$0.98 per basic share and \$0.97 per diluted share, in the first quarter of 2019.

Adjusted net income, which excludes Honeywell indemnity obligation expenses and litigation fees, for the first quarter of 2020 was \$68 million, or \$0.91 per basic share and \$0.89 per diluted share. This compares to adjusted net income of \$92 million, or \$1.24 per basic share and \$1.22 per diluted share, in the first quarter of 2019.

Expenditures for property, plant and equipment (capital expenditures) for the first quarter of 2020 totaled \$39 million, or 5.2% of net sales, compared to \$21 million, or 2.5% of net sales, in the first quarter of 2019. Capital expenditures paid in the first quarter of 2020 were mainly comprised of commitments stemming from the fourth quarter of 2019. Cash flow from operations less capital expenditures for the first quarter of 2020 was \$18 million, compared to \$15 million for the first quarter of 2019.

Additional Non-GAAP Financial Measures

Adjusted EBITDA for the first quarter of 2020 was \$108 million versus \$159 million for the same period in 2019. The Adjusted EBITDA margin decreased to 14.5% in the quarter from 19.0% in the first quarter of 2019 primarily due to lower volumes stemming from the impact of COVID-19, unfavorable product mix and higher premium freight expenses, partially offset by productivity. Adjusted free cash flow, which excludes Indemnity related payments to Honeywell, was \$57 million for the first quarter of 2020 versus \$53 million for the same period in 2019.

Liquidity and Capital Resources

As of March 31, 2020, Garrett had \$658 million in total available liquidity, including cash and cash equivalents and funds available under its revolving credit facility.

As of March 31, 2020, consolidated debt was \$1,484 million, an increase of approximately \$41 million compared to December 31, 2019. As of March 31, 2020, net debt totaled \$1,230 million, a decrease of approximately \$26 million compared to December 31, 2019. Net Debt to Consolidated EBITDA (as defined in Garrett’s Credit Agreement) was 3.01x as of March 31, 2020 versus 2.74x as of December 31, 2019. As a result of the impact of the COVID-19 pandemic, Garrett expects to be unable to comply with this covenant as early as June 30, 2020. Our management is in the process of negotiating with our lenders to obtain an amendment to or a waiver from the covenant. See our Quarterly Report on Form 10-Q for the period ended March 31, 2020 for additional information. Garrett’s weighted average stated interest rate was approximately 3.15% as of March 31, 2020, and the company has no significant debt maturities before September 2023.

2020 Outlook

On April 7, 2020, Garrett withdrew its full year 2020 guidance issued on February 27, 2020 due to the highly uncertain operating environment caused by COVID-19. The Company intends to resume providing an outlook at a future date.

Conference Call

Garrett will host a conference call on Monday, May 11, 2020 at 8:30 am Eastern Time / 2:30 pm Central European Time. The dial-in number for callers in the U.S. is +1-844-835-9983 and the dial-in number for international callers is +1-412-317-5268. The access code for all callers is 10142849. A live webcast and related slide presentation will also be available at <http://investors.garrettmotion.com/>.

A replay of the conference call can be accessed through May 25, 2020 by dialing +1-877-344-7529 in the U.S. and +1-412-317-0088 outside the U.S., and then entering the access code 10142849. The webcast will also be archived on Garrett’s website.

Forward-Looking Statements

This presentation contains “forward-looking statements” within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended. All statements, other than statements of fact, that address activities, events or developments that we or our management intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements including without limitation our statements regarding our anticipated financial performance and covenant compliance, the anticipated impact of the COVID-19 pandemic on our business, financial results and financial condition, expected cost savings, expectations regarding global automotive demand, anticipated growth of our gasoline business, trends in foreign exchange rates and estimated Indemnification Liability payments. Although we believe forward-looking statements are based upon reasonable assumptions, such statements involve known and unknown risks, uncertainties, and other factors, which may cause the actual results or performance of the company to be materially different from any future results or performance expressed or implied by such forward-looking statements. Such risks and uncertainties include, but are not limited to risks related to the COVID-19 pandemic and its impact on our business, financial results and financial condition, any failure to comply with the covenants in our credit agreement or obtain an amendment or waiver, risks related to our ability to continue as a going concern and those risks described in our annual report on Form 10-K for the year ended December 31, 2019, as updated by our quarterly report on Form 10-Q for the period ended March 31, 2020, as well as our other filings with the Securities and Exchange Commission, under the headings “Risk Factors” and “Cautionary Statement Concerning Forward-Looking Statements.” You are cautioned not to place undue reliance on

these forward-looking statements, which speak only as of the date of this document. Forward-looking statements are not guarantees of future performance, and actual results, developments and business decisions may differ from those envisaged by our forward-looking statements.

Non-GAAP Financial Measures

This presentation includes EBITDA, Adjusted EBITDA, Net Debt, Consolidated Debt, Net Debt to Consolidated EBITDA ratio, Consolidated Debt to Consolidated EBITDA ratio, Adjusted Free Cash Flow, Consolidated EBITDA, Adjusted EBITDA Margin, Adjusted Net Income, Adjusted Earnings Per Share ("EPS"), Cash flow from operations minus capital expenditures, Free Cash Flow, Adjusted Free Cash Flow Conversion, constant currency sales growth and other financial measures not compliant with generally accepted accounting principles in the United States ("GAAP"). The Non-GAAP financial measures provided herein are adjusted for certain items as presented in the Appendix containing Non-GAAP Reconciliations and may not be directly comparable to similar measures used by other companies in our industry, as other companies may define such measures differently. Management believes that, when considered together with reported amounts, these measures are useful to investors and management in understanding our ongoing operations and in analysis of ongoing operating trends. Garrett believes that Adjusted EBITDA, Adjusted EBITDA Margin and Consolidated EBITDA are important indicators of operating performance because they exclude the effects of income taxes and certain other items, as well as the effects of financing and investing activities by eliminating the effects of interest and depreciation expenses and therefore more closely measures our operational performance. These metrics should be considered in addition to, and not as replacements for, the most comparable GAAP measure. For additional information with respect to our Non-GAAP financial measures, see our annual report on Form 10-K for the year ended December 31, 2019 and our quarterly report for the period ended March 31, 2020.

About Garrett Motion Inc.

Garrett Motion is a differentiated technology leader, serving customers worldwide for more than 65 years with passenger vehicle, commercial vehicle, aftermarket replacement and performance enhancement solutions. Garrett's cutting-edge technology enables vehicles to become safer, more connected, efficient and environmentally friendly. Our portfolio of turbocharging, electric boosting and automotive software solutions empowers the transportation industry to redefine and further advance motion. (1) The accounting for the majority of our asbestos-related liability payments and accounts payable reflect the terms of the Indemnification and

Reimbursement Agreement with Honeywell entered into on September 12, 2018, under which we are required to make payments to Honeywell in amounts equal to 90% of Honeywell's asbestos-related liability payments and accounts payable, primarily related to the Bendix business in the United States, as well as certain environmental-related liability payments and accounts payable and non-United States asbestos-related liability payments and accounts payable, in each case related to legacy elements of the Business, including the legal costs of defending and resolving such liabilities, less 90% of Honeywell's net insurance receipts and, as may be applicable, certain other recoveries associated with such liabilities. See Note 17, Commitments and Contingencies of Notes to the Consolidated Interim Financial Statements in our quarterly report on Form 10-Q for the period ended March 31, 2019.

- (2) We have elected to change our definition of Adjusted EBITDA to exclude the non-service component of pension expense. Non-service pension expense is comprised of interest costs, expected return on plan assets and actuarial gains/losses. The components of non-service pension expense are primarily tied to financial market performance, changes in market interest rates and investment performance. The service cost component of our pension plans remains in Adjusted EBITDA. We consider the non-service component of pension expense to be outside the performance of our ongoing core business operations and believe that presenting Adjusted EBITDA including only the service component of pension expense, in addition to our GAAP operating results, provides increased transparency as to the operating costs of providing pension benefits to our employees and the underlying trends in our operating business performance. As a result, the prior periods presented were recast to conform to the current year presentation.
- (3) Non-operating (income) expense adjustment includes the non-service component of pension expense and other expense, net and excludes interest income, equity income of affiliates, and the impact of foreign exchange.
- (4) Stock compensation expense adjustment includes only non-cash expenses.
- (5) Repositioning charges adjustment primarily includes severance costs related to restructuring projects to improve future productivity.
- (6) During the fourth quarter of 2019 additional spin-off costs related to the first three quarters of 2019 were identified and included within the adjustment for the three and twelve months end December 31, 2019 as presented in our annual report on Form 10K. As a result, the three months and twelve months ended March 31, 2019 were recast to include these additional costs.
- (7) Spin-Off costs primarily include costs incurred for the set-up of the IT, Legal, Finance, Communications and Human Resources functions after the Spin-Off from Honeywell on October 1, 2018.
- (8) Adjusted EBITDA Margin represents Adjusted EBITDA as a percentage of net sales.
- (9) Consolidated EBITDA definition permits the add-back of gross interest expense (i.e. excluding interest income), vs. net interest expense in Adjusted EBITDA.
- (10) Consolidated EBITDA definition permits the add-back of non-cash pension service costs.

Reconciliation of Constant Currency Sales % Change⁽¹⁾

	For the Three Months Ended March 31,	
	2020	2019

Less: Foreign currency translation	(2%)	(5%)
Constant currency sales % change	(23%)	(18%)

¹ We previously referred to “constant currency sales growth” as “organic sales growth.” We define constant currency sales growth as the year-over-year change in reported sales relative to the comparable period, excluding the impact on sales from foreign currency translation. This is the same definition we previously used for “organic sales growth”. We believe this measure is useful to investors and management in understanding our ongoing operations and in analysis of ongoing operating trends.
