GARRETT MOTION INC.
NOTES TO CONSOLIDATED INTERIM FINANCIAL STATEMENTS
(Unaudited)
(Dollars in millions, except per share amounts)

Note 1. Background and Basis of Presentation

Background

Garrett Motion Inc. (the “Company” or “Garrett”) is a cutting-edge technology leader delivering differentiated solutions for emission reduction and energy efficiency. We design, manufacture, and sell highly engineered turbocharging, air and fluid compression, and high-speed electric motor technologies to original equipment manufacturers (“OEMs”) and independent aftermarket distributors in the mobility and industrial fields. We have significant expertise in delivering highly engineered products at scale for internal combustion engines using gasoline, diesel, natural gas, and hydrogen, as well as for zero-emission vehicles. Our products are key enablers for fuel economy, energy efficiency, thermal management, and compliance with greenhouse gas and other emission-reduction targets.

Basis of Presentation

The accompanying unaudited Consolidated Interim Financial Statements have been prepared in accordance with the rules and regulations of the Securities and Exchange Commission (“SEC”) applicable to interim financial statements. While these statements reflect all normal recurring adjustments that are, in the opinion of management, necessary for fair presentation of the results of the interim period, they do not include all of the information and footnotes required by United States generally accepted accounting principles (“GAAP”) for complete financial statements. The unaudited Consolidated Interim Financial Statements should therefore be read in conjunction with the Consolidated Financial Statements and accompanying notes for the year ended December 31, 2025 included in our Annual Report on Form 10-K, as filed with the SEC on February 19, 2026 (our “2025 Form 10-K”). The results of operations for the three and six months ended June 30, 2026 and cash flows for the six months ended June 30, 2026 should not necessarily be taken as indicative of the entire year. All amounts presented are in millions, except per share amounts.

We evaluate segment reporting in accordance with ASC 280, *Segment Reporting*. We concluded that Garrett operates in a single operating segment and a single reportable segment based on the operating results available and evaluated regularly by the chief operating decision maker (“CODM”), which is our Chief Executive Officer, to make decisions about resource allocation and performance assessment. The CODM makes operational performance assessments and resource allocation decisions on a consolidated basis, inclusive of all of the Company’s products across channels and geographies.

The preparation of the financial statements in conformity with GAAP requires management to make estimates that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Management bases these estimates on assumptions that it believes to be reasonable under the circumstances. Actual results could differ from the original estimates, requiring adjustments to these balances in future periods.

Note 2. Summary of Significant Accounting Policies

The accounting policies of the Company are set forth in Note 2 to the Consolidated Financial Statements for the year ended December 31, 2025 included in our 2025 Form 10-K.

Accounting Standards Issued But Not Yet Adopted

In November 2024, the FASB issued ASU 2024-03, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Disaggregation of Income Statement Expenses*. The amendments in this update require disclosure of specified information about certain costs and expenses. In January 2025, the FASB issued ASU 2025-01, *Income Statement—Reporting Comprehensive Income—Expense Disaggregation Disclosures (Subtopic 220-40): Clarifying the Effective Date*. The guidance, as clarified by ASU 2025-01, is effective for fiscal years beginning after December 15, 2026 on a prospective basis, with early adoption permitted. The Company is currently evaluating the guidance to determine the impact on its disclosures.

In September 2025, FASB issued ASU 2025-06, *Intangibles—Goodwill and Other—Internal Use Software (Subtopic 350-40): Targeted Improvements to the Accounting for Internal-Use Software*. The amendments revise the capitalization

criteria for internal-use software costs and eliminate stage-based development guidance. The update is effective for fiscal years beginning after December 15, 2027, with early adoption permitted. The Company is currently evaluating the guidance to determine the impact on its accounting policies and disclosures.

In December 2025, the FASB issued ASU 2025-10, *Government Grants (Topic 832): Accounting for Government Grants Received by Business Entities*. The amendments in this update establish the accounting for a government grant received by a business entity. The guidance is effective for fiscal years beginning after December 15, 2029, with early adoption permitted. The Company is currently evaluating the guidance to determine the impact on its accounting policies and disclosures.

There are no other recently issued, but not yet adopted, accounting pronouncements that are expected to have a material impact on the Company's Consolidated Interim Financial Statements and related disclosures.

Note 3. Revenue Recognition and Contracts with Customers

Disaggregated Revenue

Net sales by region (determined based on country of shipment) and product line is included in Note 22, *Segments and Concentrations*.

Contract Balances

The following table summarizes our contract assets and liabilities balances:

	2026		2025	
	(Dollars in millions)			
Contract assets—January 1	\$	48	\$	40
Contract assets—June 30		53		51
Change in contract assets—Increase/(Decrease)	\$	5	\$	11
Contract liabilities—January 1	\$	(10)	\$	(8)
Contract liabilities—June 30		(16)		(15)
Change in contract liabilities—Decrease/(Increase)	\$	(6)	\$	(7)

Note 4. Research, Development and Engineering

Garrett conducts research, development, and engineering (“RD&E”) activities, which consist primarily of the development of new products and product applications. RD&E costs are included in Cost of goods sold. Customer reimbursements are netted against gross RD&E expenditures as they are considered a recovery of cost. RD&E costs are charged to expense as incurred unless the Company has a contractual guarantee of reimbursement from the customer, in which case the related costs are capitalized. Total RD&E expenses, net of customer reimbursements, amounted to the following:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(Dollars in millions)			
Research, development and engineering costs	\$	44	\$	45
			\$	81
			\$	85

As of June 30, 2026 and December 31, 2025, \$45 million and \$52 million, respectively, of contractually reimbursable costs were capitalized. These amounts are recorded within Other current assets and Other assets in the Consolidated Interim Balance Sheet.

Note 5. Income Taxes

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
	(Dollars in millions)			
Tax expense	\$ 25	\$ 15	\$ 48	\$ 38
Effective tax rate	19.8 %	14.7 %	19.7 %	20.3 %

The effective tax rates for the three months ended June 30, 2026 and 2025 were 19.8% and 14.7%, respectively. The effective tax rates for the six months ended June 30, 2026 and 2025 were 19.7% and 20.3%, respectively.

The change in the effective tax rate for the three and six months ended June 30, 2026 compared to the prior period is primarily related to a decrease in U.S. taxes on international operations during 2026, the global mix of earnings from year-to-year, a one-time benefit related to the revaluation of deferred tax assets in China during 2025, and deductions related to employee share-based compensation during 2026.

The effective tax rate for the three months ended June 30, 2026 was lower than the U.S. federal statutory rate of 21% primarily because of the global mix of earnings, benefits related to research and development expenses, and the release of audit reserves.

The effective tax rate for the six months ended June 30, 2026 was lower than the U.S. federal statutory rate of 21% primarily because of the global mix of earnings, benefits related to research and development expenses, deductions related to employee share-based compensation, and the release of audit reserves.

Note 6. Accounts, Notes and Other Receivables—Net

	\$ 836	\$ 703

Trade receivables include \$53 million and \$48 million of unbilled customer contract asset balances as of June 30, 2026 and December 31, 2025, respectively. These amounts are billed in accordance with the terms of customer contracts to which they relate. See Note 3, *Revenue Recognition and Contracts with Customers*.

Notes receivable is related to guaranteed bank notes without recourse that the Company receives in settlement of accounts receivables, primarily in the Asia Pacific region. See Note 7, *Factoring and Notes Receivable*.

Other receivables includes VAT receivables of \$45 million and \$47 million as of June 30, 2026 and December 31, 2025, respectively.

Note 7. Factoring and Notes Receivable

The Company enters into arrangements with financial institutions to sell eligible trade receivables. The receivables are sold without recourse and the Company accounts for these arrangements as true sales. The Company also receives guaranteed bank notes without recourse, in settlement of accounts receivables, primarily in the Asia Pacific region. The Company can hold the bank notes until maturity, exchange them with suppliers to settle liabilities, or sell them to third-party financial institutions in exchange for cash. Bank notes sold to third-party financial institutions without recourse are likewise accounted for as true sales.

Note 11. Supplier Financing

The Company has supplier financing arrangements with two third-party financial institutions under which certain suppliers may factor their receivables from Garrett. The Company also enters into arrangements with banking institutions to issue bankers acceptance drafts in settlement of accounts payables, primarily in the Asia Pacific region. The bankers acceptance drafts, or guaranteed bank notes, have a contractual maturity of six months or less, and may be held by suppliers until maturity, transferred to their suppliers, or discounted with financial institutions in exchange for cash. The supplier financing obligations and guaranteed bank notes outstanding are recorded within Accounts payable in our Consolidated Interim Balance Sheet.

Note 14. Leases

We have operating leases that primarily consist of real estate, machinery, and equipment. As of June 30, 2026, the Company does not have any material finance leases. Our leases have remaining lease terms of up to 12 years, some of which include options to extend the leases for up to two years, and some of which include options to terminate the leases within the year.

The components of lease expense are as follows:

Note 15. Long-Term Debt and Credit Agreements

Senior Notes

On May 21, 2024, Garrett Motion Holdings Inc. and Garrett LX I S.à.r.l. (the "Issuers"), wholly owned subsidiaries of the Company, completed an offering of \$800 million in aggregate principal amount of 7.75% Senior Unsecured Notes due 2032 (the "2032 Senior Notes"). The 2032 Senior Notes mature on May 31, 2032. The Company incurred \$12 million of debt issuance costs, which have been capitalized and are being amortized on a straight-line basis.

The 2032 Senior Notes are guaranteed by the Company and each of the Company's wholly owned subsidiaries that guarantee obligations under the Credit Agreement (as defined below), subject to certain exceptions. The proceeds from the sale of the 2032 Senior Notes, together with cash on hand, were used to repay approximately \$800 million of term loan indebtedness and to pay related fees and expenses. The 2032 Senior Notes bear interest at a rate of 7.75% per annum. Interest on the 2032 Senior Notes is payable semi-annually in arrears on May 31 and November 30 of each year, commencing on November 30, 2024.

The 2032 Senior Notes indenture contains certain covenants that limit the ability of the Company and its restricted subsidiaries to incur certain additional debt, incur certain liens securing debt, pay certain dividends or make other restricted payments, make certain investments, make certain asset sales, and enter into certain transactions with affiliates. These covenants are subject to a number of exceptions, limitations, and qualifications as set forth in the 2032 Senior Notes indenture. Additionally, the indenture contains certain change of control provisions that, under certain conditions, would require the Company to make an offer to repurchase all of the outstanding 2032 Senior Notes at a price equal to 101% of the aggregate principal amount, plus accrued and unpaid interest. The indenture also contains customary events of default.

Credit Facilities

On January 30, 2025, the Company entered into a Restatement Agreement (the "Restatement Agreement"), which amends and restates the Credit Agreement, dated as of April 30, 2021 (as amended from time to time, the "Existing Credit Agreement" and as amended and restated by the Restatement Agreement and as further amended from time to time, the "Credit Agreement"), by and among the Company, Garrett Motion Holdings Inc., Garrett Motion Sàrl and Garrett LX I S.à.r.l., as borrowers (the "Borrowers"), the lenders and issuing banks part thereto from time to time, and JPMorgan Chase Bank, N.A., as administrative agent. Under the Restatement Agreement, the Company refinanced in full its \$692 million U.S. Dollar term loan facility (the "2021 Dollar Term Facility") under the Existing Credit Agreement with a new \$692 million term loan (the "2025 Dollar Term Facility") in an aggregate principal amount of \$692 million. The 2025 Dollar Term Facility matures on January 30, 2032. On May 18, 2026, the Company entered into Amendment No. 2 (the "Second Amendment") to the Restatement Agreement, which reduced the Applicable Rate (as defined in the Restatement Agreement) to the Adjusted Term SOFR Rate (as defined in the Restatement Agreement) plus 1.75% per annum in the case of Term Benchmark Loans (as defined in the Restatement Agreement) and the Alternate Base Rate plus 0.75% per annum in the case of ABR Loans (as defined in the Restatement Agreement).

Also on January 30, 2025, pursuant to the Restatement Agreement, the Company replaced its existing \$600 million revolving commitments under the Existing Credit Agreement with new revolving commitments under the Credit Agreement in an aggregate principal amount of \$630 million (the "New Revolving Facility" and, together with the 2025 Dollar Term Facility, the "Credit Facilities"). The maturity date of the New Revolving Facility is January 30, 2030. The New Revolving Facility, when drawn, will bear interest at a rate equal to the applicable benchmark plus an applicable margin that varies based on the Company's leverage ratio. Pursuant to the Second Amendment, the applicable margin for revolving borrowings ranges from 1.75% to 1.25% per annum in the case of Term Benchmark Loans and 0.75% to 0.25% per annum in the case of ABR Loans. In addition to paying interest on outstanding borrowings under the New Revolving Facility, the Company must also pay a quarterly commitment fee based on the average daily unused portion of the New Revolving Facility during such quarter, which is determined by its leverage ratio and ranges from 0.25% to 0.50% per annum.

Concurrent with the Second Amendment, the Company made an early debt repayment of \$50 million on its 2025 Dollar Term Facility. The early repayment resulted in incremental amortization of debt issuance costs of \$1 million, included within Interest expense in the Consolidated Interim Statement of Operations.

The Credit Agreement contains certain affirmative and negative covenants customary for financings of this type. The Credit Agreement also contains certain customary events of default. The New Revolving Facility is subject to a financial covenant requiring the maintenance of a consolidated total leverage ratio of not greater than 4.7 to 1.00 as of the end of each fiscal quarter if, on the last day of any such fiscal quarter, the aggregate amount of loans and letters of credit

(excluding backstopped or cash collateralized letters of credit and other letters of credit with an aggregate face amount not exceeding \$30 million) outstanding under the New Revolving Facility exceeds 35% of the aggregate commitments in effect thereunder on such date. The Credit Facilities are secured on a first-priority basis by: (i) a perfected security interest in the equity interests of each direct material subsidiary of each guarantor under the Credit Facilities and (ii) perfected security interests in, and mortgages on, substantially all tangible and intangible personal property and material real property of each of the guarantors under the Credit Facilities, subject, in each case, to certain exceptions and limitations, including the agreed guaranty and security principles.

As of June 30, 2026, the Company was in compliance with all covenants under the 2032 Senior Notes indenture and Credit Agreement.

The principal outstanding and carrying amounts of our long-term debt as of June 30, 2026 and December 31, 2025 are as follows:

	Due	Interest Rate	June 30, 2026		December 31, 2025	
2025 Dollar Term Facility	1/30/2032	SOFR plus 175 bps	\$	583	\$	637

Separate from the New Revolving Facility, the Company has a bilateral letter of credit facility with outstanding letters of credit in the amount of \$10 million and \$10 million at June 30, 2026 and December 31, 2025, respectively. The letters of credit typically support customs arrangements and other obligations at our local affiliates.

Minimum scheduled principal repayments of long-term debt as of June 30, 2026 are as follow:

Note 16. Equity

Common Stock

Cash dividends paid to shareholders of our Common Stock for the three and six months ended June 30, 2026 and 2025 were as follows (in millions, except per share amounts):

	Quarterly Dividends					
	2026			2025		
	Per Share		Total	Per Share		Total
First quarter	\$	0.08	\$	0.06	\$	12

Treasury Stock

Treasury stock represents shares of the Company's Common Stock that have been issued and subsequently repurchased by the Company or withheld to satisfy withholding tax obligations in connection with the vesting of equity awards, and that have not been retired or cancelled. The Company accounts for treasury stock under the cost method and includes treasury stock as a component of Equity (Deficit) on the Consolidated Interim Balance Sheet. The Company accounts for the reissuance of treasury stock using the average cost method. The Company did not reissue or retire any shares of treasury stock during the three and six months ended June 30, 2026.

Share Repurchase Program

On December 3, 2025, the Board of Directors authorized a \$250 million share repurchase program valid from January 1, 2026 until December 31, 2026. The Company may repurchase shares from time to time under the program through various methods, including in open market transactions, block trades, privately negotiated transactions, and otherwise. The timing, as well as the number and value of shares repurchased under the program, will depend on a variety of factors. The Company is not obligated to purchase any shares under the repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. During the six months ended June 30, 2026, the Company repurchased \$115 million of Common Stock, and had \$135 million remaining under the share repurchase program as of that date. These repurchases include a total of 2,500,000 shares repurchased from funds affiliated with Oaktree Capital Management, L.P., a related party, for \$50 million. The repurchased shares are held as treasury stock.

Note 17. Financial Instruments and Fair Value Measures

Our credit, market, and foreign currency risk management policies are described in Note 17, *Financial Instruments and Fair Value Measures*, to the Consolidated Financial Statements for the year ended December 31, 2025 included in our 2025 Form 10-K. As of June 30, 2026 and December 31, 2025, we had contracts with aggregate gross notional amounts of \$2,222 million and \$1,374 million, respectively, to hedge foreign currencies, principally the U.S. Dollar, Swiss Franc, British Pound, Euro, Chinese Yuan, Japanese Yen, Mexican Peso, New Romanian Leu, Czech Koruna, Australian Dollar, and Korean Won.

Fair Value of Financial Instruments

The FASB's accounting guidance defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). Financial and nonfinancial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The following table sets forth the Company's financial assets and liabilities that were accounted for at fair value on a recurring basis as of June 30, 2026 and December 31, 2025:

	Notional Amounts		Fair Value			
			Assets		Liabilities

Cash Flow Hedges

As of December 31, 2025, the Company had float-to-fixed interest rate swap contracts with an aggregate notional amount of \$625 million and maturities in January 2028, January 2029, January 2030 and January 2031, of which an interest rate swap contract with a notional amount of \$65 million was early settled during 2026. Changes in the fair value of the interest rate swap contracts are recorded in Accumulated Other Comprehensive Income ("AOCI") and will be reclassified to Interest expense in the Consolidated Interim Statement of Operations upon maturity. Amounts recognized related to the early settlement of the interest rate swap contract were immaterial.

The Company also has outstanding forward currency exchange contracts with maturities up to 18 months and an aggregate notional amount of \$1,088 million and \$637 million as of June 30, 2026 and December 31, 2025, respectively. These forward currency exchange contracts have been designated as cash flow hedges to mitigate foreign currency exposures primarily on our inventory purchases and manufacturing costs. The gains and losses on the forward currency exchange contracts are recorded in AOCI and reclassified to Cost of goods sold in the Consolidated Interim Statement of Operations when the underlying transactions are recognized in earnings.

In order to mitigate foreign currency risk on its 2032 Senior Notes, the Company entered into fixed-to-fixed cross-currency swap contracts with an aggregate notional amount of €507 million (\$550 million) and notional exchanges occurring in May 2027, May 2028, May 2029, and May 2030. Changes in the fair value of the cross-currency swap contracts are recognized in AOCI and reclassified to Non-operating (income) expense in the Consolidated Interim Statement of Operations, based upon changes in the spot rate remeasurement of the underlying debt. The net interest settlements on the cross-currency swap contracts are recorded in Interest expense in the Consolidated Interim Statements of Operations.

All of the Company's cash flow hedges are assessed as highly effective.

Net Investment Hedges

The Company has designated cross-currency swaps with aggregate notional amounts of €1,157 million (\$1,225 million) as net investment hedges of its Euro-denominated operations. Changes in the fair value of the net investment hedges are recorded in AOCI until the net investment is liquidated or sold. The fair values of the net investment hedges were net liabilities of \$89 million and \$124 million as of June 30, 2026 and December 31, 2025, respectively. No ineffectiveness has been recorded on the net investment hedges.

Non-Designated Derivatives

The Company has outstanding forward currency exchange contracts with maturities generally up to 3 months and an aggregate notional amount of \$1,134 million and \$737 million as of June 30, 2026 and December 31, 2025, respectively. Changes in the fair value of the forward currency exchange contracts are recorded in Non-operating (income) expense in the Consolidated Interim Statements of Operations.

The Company had float-to-fixed interest rate swap contracts that were early settled in 2025. Changes in the fair value of the undesignated interest rate swap contracts were recorded in Interest expense in the Consolidated Interim Statements of Operations.

Effect of Derivatives on the Statements of Operations and Statements of Comprehensive Income (Loss)

The following tables present the pretax impact that changes in the fair values of derivatives designated as cash flow hedges and net investment hedges had on OCI, AOCI and earnings:

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
(Dollars in millions)				
Cash flow hedges

During the next twelve months, \$14 million of pretax gain on cash flow hedges is expected to be reclassified from AOCI into income.

The following table summarizes the pretax gain (loss) that changes in the fair values of derivatives not designated as hedging instruments had on earnings:

Contract Type	Location	Three Months Ended June 30,		Six Months Ended June 30,	
		2026	2025	2026	2025
		(Dollars in millions)			
Interest rate swaps	Interest expense ⁽¹⁾	\$	—	\$	—
Forward currency exchange contracts	Non-operating income		19		(20)
					28
					(26)

(1) Includes interest income of \$6 million, partially offset by marked-to-market remeasurement losses of \$6 million, for the six months ended June 30, 2025. There were no undesignated interest rate swaps outstanding during 2026.

Fair Value Measurement

The foreign currency exchange, interest rate swap and cross-currency swap contracts are valued using market observable inputs. As such, these derivative instruments are classified within Level 2. The assumptions used in measuring the fair value of the cross-currency swap are considered Level 2 inputs, which are based upon market-observable interest rate curves, cross-currency basis curves, credit default swap curves, and foreign exchange rates.

The carrying value of Cash, cash equivalents, and restricted cash, Account receivables and Notes and Other receivables contained in the Consolidated Interim Balance Sheet approximates fair value.

The following table sets forth the Company's financial assets and liabilities that were not carried at fair value:

	June 30, 2026		December 31, 2025	
	Carrying Value	Fair Value	Carrying Value	Fair Value
(Dollars in millions)				
Term Loan Facilities	\$	573	\$	582
2032 Senior Notes		791		839
				790
				850

The Company determined the fair value of its Term Loan Facilities and related current maturities utilizing transactions in the listed markets for similar liabilities. As such, the fair value of the Term Loan Facilities and related current maturities is considered Level 2. The fair value of the 2032 Senior Notes was determined using quoted prices from exchange traded markets and is classified as a Level 1 measurement.

Note 19. Earnings Per Share

Basic earnings per share ("EPS") is computed using the two-class method. The deferred stock units ("DSUs") related to our stock-based compensation plan contain non-forfeitable rights to dividends and are considered as participating securities. The two-class method requires an allocation of earnings to all securities that participate in dividends with common shares to the extent that each such security may share in the Company's earnings. Basic EPS is then calculated by dividing undistributed earnings allocated to common stock by the weighted average number of common shares outstanding for the period. Under the two-class method, the impact of these participating securities was immaterial for the three and six months ended June 30, 2026 and 2025.

Diluted EPS is calculated by applying the two-class method for participating securities and then incorporating the dilutive effect of other potential common shares, determined using methods such as the treasury stock method, to arrive at the most dilutive EPS.

The details of the EPS calculations for the three and six months ended June 30, 2026 and 2025 are as follows:

Note 20. Commitments and Contingencies

We are involved in various lawsuits, claims, and proceedings incident to the operation of our businesses, including those pertaining to product liability, product safety, environmental, health and safety, intellectual property, employment, commercial and contractual matters and various other matters. We regularly assess the likelihood of adverse judgments or outcomes in these matters, as well as potential ranges of possible losses based on a careful analysis of each matter. We identify below the individual proceedings where we believe a material loss is reasonably possible or probable, and we accrue for matters when we believe that losses are probable and the amount of the potential loss is reasonably estimable. It is inherently difficult to determine whether a loss is probable or reasonably possible or to estimate the size or range of any potential loss. Accordingly, while we believe that appropriate accruals have been established for losses that are probable and can be reasonably estimated, it is possible that adverse outcomes from such proceedings could exceed the amounts accrued by an amount that could be material to our financial position, results of operations or cash flows.

Brazilian Tax Matter

In September 2020, the Brazilian tax authorities issued an infraction notice against Garrett Motion Industria Automotiva Brasil Ltda, challenging the use of certain tax credits between January 2017 and February 2020. The estimated total amount of the loss contingency arising from this matter as of June 30, 2026 was \$29 million, including penalties and interest. The Company believes, based on management's assessment and the advice of external legal counsel, that it has meritorious arguments in connection with the infraction notice and any liability for the infraction notice is currently not probable. Accordingly, no accrual is required at this time.

Warranties and Guarantees

In the normal course of business, we issue product warranties and product performance guarantees. We accrue for the estimated cost of product warranties and performance guarantees based on contract terms and historical experience at the time of sale to the customer. Adjustments to initial obligations for warranties and guarantees are made as changes to the obligations become reasonably estimable. Product warranties and product performance guarantees are included in Accrued liabilities and Other liabilities. The following table summarizes information concerning our recorded obligations for product warranties and product performance guarantees.

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025

Other Commitments and Contingencies

We are subject to other lawsuits, investigations, and disputes arising out of the conduct of our business, including matters relating to commercial transactions, government contracts, product liability, prior acquisitions and divestitures, employment and employee benefit plans, intellectual property, and environmental, health and safety matters. We recognize a liability for any contingency that is probable of occurring and reasonably estimable. We regularly assess the likelihood of adverse judgments or outcomes in these matters, as well as potential ranges of possible losses (taking into consideration any insurance recoveries), based on a careful analysis of each matter with the assistance of outside legal counsel and, if applicable, other experts.

Note 21. Pension Benefits

We sponsor several funded U.S. and non-U.S. defined benefit pension plans. Significant plans outside the U.S. are in Switzerland and Ireland. Other pension plans outside the U.S. are not material to the Company, either individually or in the aggregate.

Our general funding policy for qualified defined benefit pension plans is to contribute amounts at least sufficient to satisfy regulatory funding standards. We are not required to make any contributions to our U.S. pension plan in 2026. We expect to make contributions of cash and/or marketable securities of approximately \$5 million to our non-U.S. pension plans to satisfy regulatory funding standards in 2026, of which \$2 million has been contributed as of June 30, 2026.

Net periodic benefit costs for our significant defined benefit plans include the following components:

	Three Months Ended June 30,				Six Months Ended June 30,			
	U.S. Plans		Non-U.S. Plan		U.S. Plans		Non-U.S. Plan	
	2026	2025	2026	2025	2026	2025	2026	2025
	(Dollars in millions)							
Service cost	\$ —	\$ —	\$ 2	\$ 2	\$ —	\$ —	\$ 4	\$ 4
Interest cost	2	2	1	1	4	4	2	2
Expected return on plan assets	(3)	(2)	(2)	(2)	(5)	(4)	(4)	(4)
Amortization of prior service (credit)	—	—	(1)	—	—	—	(1)	(1)
Total	<u>\$ (1)</u>	<u>\$ —</u>	<u>\$ —</u>	<u>\$ 1</u>	<u>\$ (1)</u>	<u>\$ —</u>	<u>\$ 1</u>	<u>\$ 1</u>

For both our U.S. and non-U.S. defined benefit pension plans, we estimate the service and interest cost components of net periodic benefit (income) cost by utilizing a full yield curve approach in the estimation of these cost components by applying the specific spot rates along the yield curve used in the determination of the pension benefit obligation to their underlying projected cash flows. This approach provides a more precise measurement of service and interest costs by improving the correlation between projected cash flows and their corresponding spot rates.

Note 22. Segments and Concentrations

The Company has identified our CODM as the Chief Executive Officer. The CODM reviews consolidated net income when assessing the Company's performance, allocating resources, and establishing management's compensation. In addition to consolidated net income, the CODM receives discrete information for net sales by product and by geographical location. Consolidated net income is used to monitor budget versus actual results.

The accounting policies of our operating segment are the same as those described in the Company's summary of significant accounting policies.

The Company derives revenues from customers through sales of turbocharging, air and fluid compression, and high-speed electric motor technologies for OEMs and independent aftermarket distributors in the mobility and industrial fields.

Sales concentration - Net sales by region (determined based on country of shipment) and product line are as follows:

(2) Fixed manufacturing costs include depreciation and amortization, rent, overhead labor costs, repositioning costs, utilities, and other fixed costs.

(3) Other segment items consist of non-service components of net periodic pension expense, interest income, equity income and other non-operating income items (if any).

The measure of segment assets is reported on the Consolidated Interim Balance Sheet as total consolidated assets. The Company had capital expenditures of \$17 million and \$15 million for the three months ended June 30, 2026 and 2025, respectively, and \$46 million and \$41 million for the six months ended June 30, 2026 and 2025, respectively.

Note 23. Subsequent Events

On July 29, 2026, the Board of Directors declared a cash dividend of \$0.08 per share of Common Stock, payable on September 15, 2026, to shareholders of record as of September 1, 2026.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and results of operations, which we refer to as our “MD&A,” should be read in conjunction with our Consolidated Interim Financial Statements and related notes appearing elsewhere in this Quarterly Report on Form 10-Q as well as the audited annual Consolidated Financial Statements for the year ended December 31, 2025, included in our 2025 Form 10-K. Some of the information contained in this MD&A or set forth elsewhere in this Quarterly Report on Form 10-Q, including information with respect to our plans and strategy for our business, includes forward-looking statements that involve various risks and uncertainties. Please refer to the "Special Note Regarding Forward-Looking Statements" below.

The following MD&A is intended to help you understand the results of operations and financial condition of Garrett Motion Inc. for the three and six months ended June 30, 2026.

Executive Summary

During the second quarter of 2026, we outperformed the light vehicle industry and saw growth across all verticals. This was primarily driven by increased gasoline volumes from new program launches, strong demand in light commercial vehicle as well as continued industrial growth. Aftermarket growth further contributed to a favorable product mix. We delivered strong operating performance year-over-year, resulting in Net income for the quarter of \$101 million and Adjusted EBIT⁽¹⁾ of \$152 million. As the broader macroeconomic and geopolitical conditions evolve, we continue to actively monitor developments and their potential impacts on the industry and our operations.

We continue to have success across our differentiated technologies by winning business in both turbo and zero emission offerings. We secured light vehicle turbo, commercial vehicle and industrial awards across multiple regions, including turbo technology for data centers. We have also received favorable feedback from mobility and industrial customers related to expected efficiency gains from our E-Cooling oil-free compressor over existing recognized technologies. We also kicked off pre-development of a commercial vehicle E-powertrain with a Japanese truck maker.

For the three months ended June 30, 2026, we repurchased \$28 million of Common Stock under our share repurchase program. As of June 30, 2026, we had \$135 million of the authorized amount remaining under our share repurchase program. The repurchased shares are held as treasury stock.

On April 30, 2026, the Board of Directors declared a cash dividend of \$0.08 per share of Common Stock, payable on June 15, 2026, to shareholders of record as of June 1, 2026. The total amount of dividends paid on June 15, 2026 amounted to \$15 million. On July 29, 2026, the Board of Directors declared a cash dividend of \$0.08 per share of Common Stock, payable on September 15, 2026, to shareholders of record as of September 1, 2026.

(1) Adjusted EBIT is a non-GAAP measure. Refer to "Non-GAAP Measures" below for a definition of Adjusted EBIT and a reconciliation of Adjusted EBIT to net income, the most directly comparable GAAP financial measure.

% change compared with prior period		6.9 %				9.5 %		

Net Sales for the Three Months Ended June 30, 2026

For the three months ended June 30, 2026, net sales compared to the prior period increased by \$63 million or 7% (including a favorable impact of \$15 million or 2% due to foreign currency fluctuation). The increase was primarily related to higher demand across all verticals, favorable price net of inflation pass-through, and foreign currency impacts, partially offset by lower customer recoveries on import tariffs.

Gasoline product sales increased by \$18 million or 5% (including a favorable impact of \$7 million or 2% due to foreign currency translation), primarily driven by new application launches and program ramp-ups in Europe, India, and South America.

Diesel product sales increased by \$18 million or 8% (including a favorable impact of \$6 million or 2% due to foreign currency translation), primarily driven by strong demand for light commercial vehicles and pickup trucks in Europe, Asia, and South America, and program ramp-ups in India.

Commercial vehicle and Industrial sales increased by \$18 million or 10% (with no impact from foreign currency translation), primarily driven by volume recovery in China and continued industrial growth in China and North America stationary power generation ("Gensets") for data centers.

Aftermarket sales increased by \$8 million or 8% (including a favorable impact of \$2 million or 1% due to foreign currency translation), primarily due to stronger demand for replacement parts in Europe, China, and Australia, partially offset by softer demand for off-highway replacement parts in North America.

Net Sales for the Six Months Ended June 30, 2026

For the six months ended June 30, 2026, net sales compared to the prior period increased by \$170 million or 9% (including a favorable impact of \$73 million or 4% due to foreign currency translation). The increase was primarily related to higher demand across all verticals, and favorable foreign currency impacts, partially offset by unfavorable price net of inflation pass-through and lower customer recoveries on import tariffs.

Gasoline product sales increased by \$58 million or 7% (including a favorable impact of \$34 million or 4% due to foreign currency translation), primarily driven by new application launches and program ramp-ups in Europe, India, and South America.

Diesel product sales increased by \$42 million or 10% (including a favorable impact of \$24 million or 6% due to foreign currency translation), primarily driven by strong demand for light commercial vehicles and pickup trucks in Europe, Asia, and South America and program ramp-ups in India.

Commercial vehicle and Industrial sales increased by \$44 million or 14% (including a favorable impact of \$6 million or 2% due to foreign currency translation), primarily driven by volume recovery in China and continued industrial growth in China and North America Gensets for data centers.

Aftermarket sales increased by \$24 million or 11% (including a favorable impact of \$8 million or 3% due to foreign currency translation), primarily due to stronger demand for replacement parts in Europe, India, China, and Australia, while North America remains stable compared with the prior period.

	2026	2025	2026	2025
(Dollars in millions)				
Other expense, net	\$ 1	\$ 1	\$ 2	\$ 8

Other expense, net for the three months ended June 30, 2026 was consistent with the prior period.

Other expense, net for the six months ended June 30, 2026 decreased by \$6 million compared to the prior period, primarily driven by \$6 million in professional fees incurred in the prior year related to our Restatement Agreement.

Interest Expense

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
(Dollars in millions)				
Interest expense	\$ 24	\$ 25	\$ 51	\$ 54

For the three months ended June 30, 2026, interest expense decreased by \$1 million compared to the prior period. This decrease was primarily due to \$3 million in lower interest expense due to a different notional amount of debt outstanding during the period. In addition, we recorded net gains of \$2 million on our interest derivatives in the current year, in comparison to net gains of \$4 million in the prior year.

For the six months ended June 30, 2026, interest expense decreased by \$3 million compared to the prior period. This decrease was primarily due to \$5 million in lower interest expense due to a different notional amount of debt outstanding during the period and the repricing of our Credit Agreement. In addition, we recorded net gains of \$1 million on our interest derivatives in the current year, in comparison to net gains of \$4 million in the prior year.

Non-Operating Income, Net

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
(Dollars in millions)				
Non-operating income, net	\$ (2)	\$ (6)	\$ (10)	\$ (7)

For the three months ended June 30, 2026, we had non-operating income of \$2 million versus \$6 million in the prior period. The decrease in non-operating income was primarily driven by a decrease in foreign exchange transactional gains.

For the six months ended June 30, 2026, we had non-operating income of \$10 million versus \$7 million in the prior period. The increase in non-operating income was primarily driven by the resolution of certain environmental liabilities, partially offset by a decrease in foreign exchange transactional gains.

Tax Expense

	Three Months Ended June 30,		Six Months Ended June 30,	
	2026	2025	2026	2025
(Dollars in millions)				
Tax expense	\$ 25	\$ 15	\$ 48	\$ 38
Effective tax rate	19.8 %	14.7 %	19.7 %	20.3 %

The effective tax rates for the three months ended June 30, 2026 and 2025 were 19.8% and 14.7%, respectively. The effective tax rates for the six months ended June 30, 2026 and 2025 were 19.7% and 20.3%, respectively.

The change in the effective tax rate for the three and six months ended June 30, 2026 compared to the prior period is primarily related to a decrease in U.S. taxes on international operations during 2026, the global mix of earnings from year-to-year, a one-time benefit related to the revaluation of deferred tax assets in China during 2025, and deductions related to employee share-based compensation during 2026.

The effective tax rate can vary from quarter to quarter due to changes in the Company's global mix of earnings, the resolution of income tax audits, changes in tax laws (including updated guidance on U.S. tax reform), deductions related to employee share-based compensation, internal restructurings, and pension mark-to-market adjustments.

Net Income

	Three Months Ended June 30,		Six Months Ended June 30,

(Dollars in millions)				
Net income	\$ 101	\$ 87	\$ 196	\$ 149
Net income margin	10.3 %	9.5 %	10.0 %	8.3 %

Net income for the three months ended June 30, 2026 increased by \$14 million compared with the prior period, primarily due to \$31 million of higher gross profit and \$1 million of lower interest expense, partially offset by \$10 million of higher tax expense, \$4 million of lower non-operating income, and \$4 million of higher SG&A expense.

Net income for the six months ended June 30, 2026 increased by \$47 million compared with the prior period, primarily due to \$48 million of higher gross profit, \$6 million lower other expense, net, \$3 million lower interest expense, and \$3 million higher non-operating income, partially offset by \$10 million higher tax expense and \$3 million higher SG&A expense.

Non-GAAP Measures

It is management's intent to provide non-GAAP financial information to supplement the understanding of our business operations and performance, and it should be considered by the reader in addition to, but not instead of, the financial statements prepared in accordance with GAAP. Each non-GAAP financial measure is presented along with the most directly comparable GAAP measure so as not to imply that more emphasis should be placed on the non-GAAP measure. The non-GAAP financial information presented may be determined or calculated differently by other companies and may not be comparable to other similarly titled measures used by other companies. Additionally, the non-GAAP financial measures have limitations as analytical tools and should not be considered in isolation from, or as a substitute for, an analysis of the Company's operating results as reported under GAAP.

EBIT and Adjusted EBIT

We define “EBIT” as our net income calculated in accordance with GAAP, plus the sum of (i) interest expense net of interest income and (ii) tax expense. We define “Adjusted EBIT” as EBIT, plus the sum of (i) repositioning costs, (ii) foreign exchange (gain) loss on debt net of related hedging (gains) losses, (iii) discounting costs on factoring, (iv) gain on sale of equity investment, (v) acquisition and divestiture expenses, (vi) other non-operating income, and (vii) debt refinancing and redemption costs, if any.

We believe that EBIT and Adjusted EBIT are important indicators of operating performance and provide useful information for investors because EBIT and Adjusted EBIT exclude the effects of income taxes, as well as the effects of financing activities by eliminating the effects of interest. Certain adjustment items, while periodically affecting our results, may also vary significantly from period to period and have disproportionate effect in a given period, which affects the comparability of our results.

The following table reconciles Net income under GAAP to Adjusted EBIT:

	Three Months Ended June 30,		Six Months Ended June 30,

Adjusted EBIT for the Three Months Ended June 30, 2026

For the three months ended June 30, 2026, net income increased by \$14 million versus the prior period as discussed above within *Results of Operations for Three and Six Months Ended June 30, 2026*.

For the three months ended June 30, 2026, Adjusted EBIT increased by \$28 million compared to the prior period, driven primarily by \$16 million of higher volumes, \$10 million of higher productivity, \$8 million of pricing net of inflation pass-through, \$4 million of lower RD&E costs, and \$3 million of favorable product mix. These increases were partially offset by \$8 million of commodity, transportation, and energy inflation and \$5 million of unfavorable foreign currency impacts.

During the three months ended June 30, 2026, we saw volume growth across all verticals. Gasoline growth was driven by new application launches and program ramp-ups in Europe, India, and South America. Diesel growth was due to strong demand for light commercial vehicles and pickup trucks in Europe, Asia and South America, and program ramp-ups in India. Commercial vehicle and industrials growth was driven by strong on-highway demand in China following launches and North America Gensets for data centers. Aftermarket volumes increased in Europe, China, and Australia, resulting in a favorable product mix.

The strong operational productivity from our ability to flex our variable cost structure while driving sustained fixed cost productivity was partially offset by year-over-year labor inflation and higher stock based compensation.

Losses in foreign currency for the three months ended June 30, 2026 were primarily driven by a strong Chinese Yuan and Japanese Yen, partially offset by gains from our derivatives for a \$5 million decrease in Adjusted EBIT.

Adjusted EBIT for the Six Months Ended June 30, 2026

For the six months ended June 30, 2026, net income increased by \$47 million versus the prior period as discussed above within *Results of Operations for Three and Six Months Ended June 30, 2026*.

For the six months ended June 30, 2026, Adjusted EBIT increased by \$48 million compared to the prior period, driven primarily by \$35 million of higher volumes, \$11 million of lower RD&E costs, \$8 million of favorable foreign currency impacts, and \$7 million of favorable product mix. These increases were partially offset by \$6 million of

commodity, transportation, and energy inflation, \$4 million of lower productivity, and \$3 million of pricing net of inflation pass-through.

During the six months ended June 30, 2026, we saw volume growth across all verticals. Gasoline growth was driven by new application launches and program ramp-ups in Europe, India, and South America. Diesel growth was due to strong demand for light commercial vehicles and pickup trucks in Europe, Asia, and South America and program ramp-ups in India. Commercial vehicle volume growth was driven by higher on-highway demand in Asia from new launches and following low volumes in the prior period and strong demand in China and North America for Gensets for data centers. Aftermarket volumes increased in Europe, India, China, and Australia for commercial vehicle parts, resulting in favorable mix.

The increased productivity from our ability to flex our variable cost structure while driving sustained fixed cost productivity was offset by year-over-year labor inflation, higher stock-based compensation, and one-time expenses.

Gains in foreign currency from translational, transactional, and hedging effects in the six months ended June 30, 2026 were primarily driven by a stronger Chinese Yuan-to-U.S. dollar versus the prior period, accounting for an \$8 million increase in Adjusted EBIT.

Liquidity and Capital Resources

Overview

	June 30, 2026	December 31, 2025
	(Dollars in millions)	
Cash and cash equivalents	\$ 158	\$ 177
Restricted cash	2	2
Revolving Facility - available borrowing capacity	630	630
Revolving Facility - borrowings or letters of credit outstanding	—	—
Term Loan Facilities - principal outstanding	583	637
Senior Notes - principal outstanding	800	800
Bilateral letter of credit facility - utilized capacity	10	10

On May 18, 2026, we entered into the Second Amendment to the Restatement Agreement, which reduced the Applicable Rate to the Adjusted Term SOFR Rate plus 1.75% per annum in the case of Term Benchmark Loans and the Alternate Base Rate plus 0.75% per annum in the case of ABR Loans. Additionally, the Second Amendment reduced the applicable margin for revolving borrowings to a range of 1.75% to 1.25% per annum in the case of Term Benchmark Loans and 0.75% to 0.25% per annum in the case of ABR loans. We also made an early debt repayment of \$50 million on our 2025 Dollar Term Facility.

During the six months ended June 30, 2026, we paid cash dividends of \$31 million. On July 29, 2026, we declared a cash dividend of \$0.08 per share of Common Stock, payable on September 15, 2026, to shareholders of record as of September 1, 2026.

We employ several means to manage our liquidity, and our sources of financing include cash flows from operations, cash and cash equivalents on hand, the 2032 Senior Notes, and our Credit Agreement, including our 2025 Dollar Term Facility and our New Revolving Facility. We expect to continue investing in our facilities as we expand our manufacturing capacity for new product launches and invest in new technologies and strategic growth opportunities, in particular in connection with our zero-emission technologies. We believe the combination of expected cash flows, the term loan borrowings, the 2032 Senior Notes, and the New Revolving Facility, will provide us with adequate liquidity to support the Company's operations and investments in strategic growth opportunities through at least the next 12 months. From time-to-time, we may opportunistically access the debt or equity capital markets, or otherwise pursue financing transactions, to supplement our sources of liquidity.

Share Repurchase Program

On December 3, 2025, the Board of Directors authorized a \$250 million share repurchase program valid from January 1, 2026, until December 31, 2026. During the six months ended June 30, 2026, we repurchased \$115 million of Common

Stock, with \$135 million remaining under the share repurchase program as of that date. These repurchases include a total of 2,500,000 shares repurchased from funds affiliated with Oaktree Capital Management, L.P., a related party, for \$50 million. We may repurchase shares from time to time under the program through various methods, including in open market transactions, block trades, privately negotiated transactions, and otherwise. The timing, as well as the number and value of shares repurchased under the program, will depend on a variety of factors. We are not obligated to purchase any shares under the share repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. For more information, see Item 2. *Unregistered Sales of Equity Securities and Use of Proceeds*.

Cash Flow Summary for the Six Months Ended June 30, 2026

	Six Months Ended June 30,	
	2026	2025
	(Dollars in millions)	
Cash provided by (used for):		
Operating activities	\$ 243	\$ 214
Investing activities	(38)	(26)
Financing activities	(222)	(89)
Effect of exchange rate changes on cash and restricted cash	(2)	8
Net (decrease) increase in cash, cash equivalents and restricted cash	\$ (19)	\$ 107

Cash provided by operating activities increased by \$29 million for the six months ended June 30, 2026 compared to the prior period. The increase was primarily driven by \$32 million of higher net income net of non-cash charges and \$63 million of favorable impact from changes in other assets and liabilities, partially offset by \$66 million of unfavorable impacts from working capital changes.

Cash flow used for investing activities increased by \$12 million for the six months ended June 30, 2026 compared to the prior period. The increase was driven by \$5 million in higher capital expenditures on property, plant and equipment versus the prior period and \$7 million in reduced proceeds from our cross currency swaps.

Cash used for financing activities was \$222 million for the six months ended June 30, 2026 compared with \$89 million in the prior period. During the six months ended June 30, 2026, we made payments of \$115 million for the repurchase of Common Stock under our share repurchase program, debt repayments of \$110 million, and payments of \$31 million for dividends on our Common Stock. These payments were partially offset by \$56 million of proceeds from our Credit Facilities.

In comparison, cash used for financing activities was \$89 million for the six months ended June 30, 2025, primarily driven by debt repayments of \$73 million, payments of \$52 million for Common Stock repurchases, and payments of \$25 million for dividends on our Common Stock. These payments were partially offset by proceeds of \$68 million from the Credit Facilities.

Off-Balance Sheet Arrangements

We do not engage in any off-balance sheet financial arrangements that have or are reasonably likely to have a material current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

Critical Accounting Policies and Estimates

The preparation of our Consolidated Interim Financial Statements in accordance with GAAP is based on the selection and application of accounting policies that require us to make significant estimates and assumptions about the effects of matters that are inherently uncertain. Actual results could differ from our estimates and assumptions, and any such differences could be material to our financial statements. Our critical accounting policies and estimates are summarized in the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” section of our 2025 Form 10-K.

Recent Accounting Pronouncements

See Note 2, *Summary of Significant Accounting Policies* of the Notes to the Consolidated Interim Financial Statements for further discussion of recent accounting pronouncements.

Special Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q and the other reports filed by us with the SEC from time to time, as well as statements incorporated by reference herein and related comments by our management, contain forward-looking statements within the meaning of the U.S. federal securities laws. All statements other than statements of historical fact, including without limitation statements regarding our future results of operations and financial position, expectations regarding the growth of the turbocharger and electric vehicle markets and other industry trends, the sufficiency of our cash and cash equivalents, anticipated sources and uses of cash, anticipated investments in our business, our business strategy, pending litigation, anticipated interest expense, and the plans and objectives of management for future operations and capital expenditures are forward-looking statements. In many cases, you can identify forward-looking statements by terms such as “aim,” “anticipate,” “appears,” “approximately,” “believe,” “continue,” “could,” “designed,” “effect,” “estimate,” “evaluate,” “expect,” “forecast,” “goal,” “initiative,” “intend,” “may,” “objective,” “outlook,” “plan,” “potential,” “priorities,” “project,” “pursue,” “seek,” “should,” “target,” “when,” “will,” “would,” or the negative of these terms or other similar expressions. In making these forward-looking statements, we rely on our current expectations and projections about possible future events and financial trends that we believe may affect our business, financial condition and results of operations. We believe these judgments are reasonable, but these statements are not guarantees of any future events or financial results, and our actual results may differ materially due to a variety of important factors, many of which are beyond our control. These factors, which may be revised or supplemented in subsequent reports we file with the SEC, include, among other things, risks related to the following: (1) the ongoing evolution of the automotive industry; (2) the highly competitive markets in which we operate; (3) our reliance on sales to major customers; (4) changing industry and economic conditions; (5) the unique aspects of our aftermarket business; (6) pricing pressures from our original equipment manufacturer customers; (7) the foreign markets in which we operate; (8) climate change and increased scrutiny from customers, investors, regulators, and other stakeholders; (9) recruitment, development, and retention of qualified personnel; (10) program launch difficulties; (11) volatility in the cost of raw materials, components, energy, transportation, and other inputs; (12) supply shortages or supplier distress leading to a disruption of our operations; (13) realization of sales from awarded business; (14) economic, political, regulatory, foreign exchange, and other risks of our international operations; (15) geopolitical conditions, catastrophic events, and pandemics; (16) joint venture partnerships, joint development projects, and other strategic opportunities; (17) intellectual property rights; (18) work stoppages or other disruptions at our facilities; (19) realization of productivity and efficiency improvements and repositioning projects; (20) warranty claims, product recalls, field actions, or product liability actions; (21) litigation, government proceedings and other contingencies and uncertainties; (22) environmental matters and liabilities; (23) information technology and data privacy considerations, including cybersecurity and other security concerns; (24) our substantial indebtedness and restrictive covenants related to such indebtedness; (25) tax considerations; (26) our ability to raise capital; (27) our pension funding obligations; or (28) payment of dividends and share repurchases. For a further discussion of these and other risks, refer to Part I, Item 1A. “Risk Factors” of our 2025 Form 10-K.

You should read this Quarterly Report and the documents that we reference herein completely and with the understanding that our actual future results may be materially different from those envisioned by these forward-looking statements. We qualify all of our forward-looking statements by these cautionary statements. These forward-looking statements speak only as of the date of this Quarterly Report. Except as required by applicable law, we do not plan to publicly update or revise any forward-looking statements contained herein, whether as a result of any new information, future events, changed circumstances, or otherwise.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As of June 30, 2026, the net fair value of all financial instruments with exposure to currency risk was \$90 million. The potential loss or gain in fair value for such financial instruments from a hypothetical 10% adverse or favorable change in quoted currency exchange rates would be \$291 million and \$(327) million, respectively, at June 30, 2026, exchange rates. The model assumes a parallel shift in currency exchange rates; however, currency exchange rates rarely move in the same direction. The assumption that currency exchange rates change in a parallel fashion may overstate the impact of changing currency exchange rates on assets and liabilities denominated in currencies other than the U.S. dollar.

There have been no other material changes to the Company's quantitative and qualitative disclosures about interest rate or commodity price risks as disclosed in Part II, Item 7A, *Quantitative and Qualitative Disclosures About Market Risks*, in our 2025 Form 10-K. The Company does not use financial instruments for trading or other speculative purposes.

Item 4. Controls and Procedures

In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives. In addition, the design of disclosure controls and procedures must reflect the fact that there are resource constraints, and that management is required to apply judgment in evaluating the benefits of possible controls and procedures relative to their costs.

Our management, with the participation of our Chief Executive Officer and Chief Financial Officer, conducted an evaluation of our disclosure controls and procedures, as such term is defined under Rule 13a-15(e) promulgated under the Exchange Act. Based on management's evaluation, our Chief Executive Officer and Chief Financial Officer concluded that our disclosure controls and procedures were effective at the reasonable assurance level as of June 30, 2026.

There were no changes in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) that occurred during the quarter ended June 30, 2026, that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II—OTHER INFORMATION

Item 1. Legal Proceedings

We are involved in various lawsuits, claims, and proceedings incident to the operation of our businesses, including those pertaining to government contracts, product liability, prior acquisitions and divestitures, product safety, environmental, safety and health, intellectual property, employment and employee benefit plans, intellectual property, commercial and contractual matters, and various other matters. Although the outcome of any such lawsuit, claim, or proceeding cannot be predicted with certainty and some may be disposed of unfavorably to us, we do not currently believe that such lawsuits, claims, or proceedings will have a material adverse effect on our financial position, results of operations or cash flows. We accrue for potential liabilities in a manner consistent with accounting principles generally accepted in the United States. Accordingly, we accrue for a liability when it is probable that a liability has been incurred and the amount of the liability is reasonably estimable.

For additional information regarding our legal proceedings, see the discussion under Note 20, *Commitments and Contingencies* of the Notes to the Consolidated Interim Financial Statements, which is incorporated by reference into this Part II, Item 1.

Item 1A. Risk Factors

There have been no material changes to the risks described under "Risk Factors" in our 2025 Form 10-K. In addition to the other information set forth in this Quarterly Report on Form 10-Q, you should carefully consider the factors discussed under "Risk Factors" in our 2025 Form 10-K. These factors could materially adversely affect our business, financial condition, or results of operations, and could cause our actual results to differ materially from our historical results or the results contemplated by any forward-looking statements contained in this report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On December 3, 2025, the Board of Directors authorized a \$250 million share repurchase program valid from January 1, 2026, until December 31, 2026. The Company may repurchase shares from time to time under the program through various methods, including in open market transactions, block trades, privately negotiated transactions, and otherwise. The timing, as well as the number and value of shares repurchased under the program, will depend on a variety of factors. The Company is not obligated to purchase any shares under the repurchase program, and the program may be suspended, modified, or discontinued at any time without prior notice. The following table summarizes our share repurchase activity for the three months ended June 30, 2026, and additional information regarding our share repurchase program:

Period	Total Number of Common Shares Purchased ⁽¹⁾	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plan or Program	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Plan or Program
April 1, 2026 – April 30, 2026	595,168	19.33	595,168	\$ 151,476,895
May 1, 2026 – May 31, 2026	—	—	—	151,476,895
June 1, 2026 – June 30, 2026	503,162	33.29	503,162	134,727,636
Total	<u>1,098,330</u>	<u>\$ 25.72</u>	<u>1,098,330</u>	<u>\$ 134,727,636</u>

(1) Excludes shares withheld to satisfy tax withholding obligations in connection with the vesting of equity awards.

Other than the repurchases reflected in the table above, there were no purchases of equity securities by the issuer or affiliated purchasers during the quarter ended June 30, 2026.

Item 3. Defaults Upon Senior Securities

Not applicable.

Item 4. Mine Safety Disclosures

Not applicable.

Item 5. Other Information

Trading Agreements

On June 2, 2026, Daniel Deiro, Senior Vice President, Global Customer Management & General Manager, Japan/Korea, adopted a "Rule 10b5-1 trading arrangement" as such term is defined in Item 408(a) of Regulation S-K intended to satisfy Rule 10b5-1(c), to sell up to 50,000 shares of Common Stock between September 1, 2026 and May 21, 2027.

On June 11, 2026, Julia Steyn, Director, adopted a "Rule 10b5-1 trading arrangement" as such term is defined in Item 408(a) of Regulation S-K intended to satisfy Rule 10b5-1(c), to sell up to 13,417 shares of Common Stock between September 10, 2026 and April 22, 2027.

During the three months ended June 30, 2026, no other director or Section 16 officer of the Company adopted or terminated a "Rule 10b5-1 trading arrangement" or "non-Rule 10b5-1 trading arrangement," as each term is defined in Item 408(a) of Regulation S-K.

NON-EMPLOYEE DIRECTOR COMPENSATION PROGRAM

1.0 Scope of application

Eligible Directors (as defined below) on the board of directors (the “**Board**”) of Garrett Motion Inc. (the “**Company**”) shall be eligible to receive cash and equity compensation as set forth in this Non-Employee Director Compensation Program (this “**Program**”).

2.0 Introduction and purpose

The cash and equity compensation described in this Program shall be paid or be made, as applicable, automatically as set forth herein and without further action of the Board, to each member of the Board who is not an employee of the Company or any of its parents, affiliates or subsidiaries (each, an “**Eligible Director**”).

This Program shall remain in effect until it is revised or rescinded by further action of the Board. This Program may be amended, modified or terminated by the Board at any time in its sole discretion. No Eligible Director shall have any rights hereunder, except with respect to equity awards granted pursuant to Section 2 of this Program.

3.0 Policies

3.1 Cash Fees.

The annual cash retainer fees (the “**Fees**”) will be as follows:

<u>Board Service</u>	
Base Retainer for each Eligible Director:	\$ 100,000
Additional Retainer for Independent Chairman:	\$ 140,000
<u>Committee Service</u>	
<i>Committee Chair Annual Retainer:</i>	
Audit	\$ 25,000
Compensation	\$ 20,000
Nominating and Governance	\$ 15,000
Other	\$ 15,000
<i>Committee Member Annual Retainer:</i>	
Audit	\$ 10,000
Compensation	\$ 7,500
Nominating and Governance	\$ 7,500
Other	\$ 7,500

There will be no separate consideration for attendance at or participation in Board or Committee meetings or discussions or other activities undertaken in the course of Board service.

Fees will be paid in four equal quarterly installments in advance, on or about the first business day of January, April, July and October, except to the extent an Eligible Director has timely elected to defer such Fees in accordance with the terms of any Fee deferral program established by the Board. Fees will be prorated for partial quarters of service as a director, including to (a) a new director joining the Board as an Eligible Director, for the quarter in which the director joins the Board; (b) a director who becomes an Eligible Director during Board service, for the quarter in which Eligible Director status is attained; and (c) for the quarter in which an Eligible Director leaves the Board. Fees for partial quarters of service on committees will not be prorated but will reflect the committee assignments as of the date of payment.

3.2 Equity Awards.

3.2.1 General. Eligible Directors shall be granted the equity awards described below. The awards described below shall be granted under and shall be subject to the terms and provisions of the Garrett Motion Inc. 2021 Long-Term Incentive Plan (such plan, as may be amended from time to time, the “**Equity Plan**”) and may be granted subject to the execution and delivery of award agreements, including attached exhibits, in substantially the forms approved by the Board prior to or in connection with such grants. All applicable terms of the Equity Plan apply to this Program as if fully set forth herein, and all grants of equity awards hereby are subject in all respects to the terms of the Equity Plan. Capitalized terms not otherwise defined herein shall have the meanings ascribed to them in the Equity Plan.

3.2.2 Annual Awards. An Eligible Director who is serving on the Board as of the date of any annual meeting of the Company’s stockholders (the “**Annual Meeting**”) and will continue to serve as an Eligible Director immediately following such Annual Meeting shall be automatically granted, on such date of the applicable Annual Meeting, a number of restricted stock units (“**RSUs**”) with a total target value equal to \$150,000 (the “**Target Value**”). The RSUs described in this Section 2(b) shall be referred to herein as the “**Annual Awards**”. Each Annual Award shall vest in full on the earlier of (i) the one-year anniversary of the grant date, (ii) the next Annual Meeting, (iii) death, (iv) disability or (v) the Eligible Director’s removal from the Board coincident with the occurrence of a Change in Control (such date, the “**Vesting Date**”), subject to the Eligible Director continuing in service as an Eligible Director through the Vesting Date. The actual number of RSUs granted shall be determined by dividing the Target Value by the Fair Market Value of Shares on the date of the Annual Meeting. In the event the Eligible Director experiences a separation from service for any reason other than as described in clauses (iii) through (v) above, any unvested RSUs held by the Eligible Director as of the Eligible Director’s separation date shall be immediately forfeited to the Company without consideration.

3.2.3 Pro-Rata Annual Awards. Notwithstanding the foregoing, if a person is subsequently appointed as an Eligible Director or attains Eligible Director status between Annual Meetings, then such Eligible Director will be granted, on the date such person attains Eligible Director status, an Annual Award under Section 2(b), subject to a pro-rata reduction of the Target Value

(and applicable Annual Award) based on the quotient of (A) a number equal to (i) 365 minus (ii) the number of days elapsed from such Eligible Director's initial appointment to the Board and the anticipated date of the next Annual Meeting (if the next annual meeting has not yet been scheduled, assuming the next Annual Meeting is scheduled to be held on the same month and day as the immediately preceding Annual Meeting) divided by (B) 365 (the "**Pro-Rata Annual Awards**" and together with the Annual Awards, the "**Equity Awards**"). Each Pro-Rata Annual Award shall vest in full on the earlier of (i) the next Annual Meeting, (ii) death, (iii) disability or (iv) the Eligible Director's removal from the Board coincident with the occurrence of a Change in Control (such date, the "**Vesting Date**"), subject to the Eligible Director continuing in service as an Eligible Director through the Vesting Date. In the event the Eligible Director experiences a separation from service for any reason other than as described in clauses (ii) through (iv) above, any unvested RSUs held by the Eligible Director as of the Eligible Director's separation date shall be immediately forfeited to the Company without consideration.

3.2.4 Stock Ownership Guidelines. Under our non-employee director stock ownership guidelines, each non-employee director is required to hold a number of shares of Company common stock having a market value equal to or greater than five times the annual base cash retainer payable to the non-employee director. In the case of the Chairman the holding requirement is equal to or greater than 6 times the annual base cash retainer. Until the applicable ownership guideline is achieved, each non-employee director is required to retain at least 50% of the shares acquired from Company restricted stock unit grants, other than any shares required to be sold to pay applicable taxes. Once the applicable ownership guideline is achieved, the aforementioned retention ratio will no longer apply. If a non-employee director's share ownership subsequently falls back below the applicable ownership, the non-employee director will be required to comply again with the retention ratio until such time as the non-employee director again achieves the ownership guideline. Any deferred fully vested stock units granted to non-employee directors under the Equity Plan in respect of any deferred cash Fees will count towards the applicable stock ownership guideline holding requirement.

3.3 Education Reimbursement.

Eligible Directors shall also be entitled to reimbursement for attendance at continuing professional education programs in the ordinary course; provided that (i) the program is directly related to the role of serving as a public company director; (ii) the reimbursement cost does not exceed \$10,000 in the aggregate; and (iii) attendance is pre-approved by the SVP, Chief Human Resources Officer and the SVP, Corporate Secretary & General Counsel of the Company. The Company shall make reimbursement to an Eligible Director within a reasonable amount of time following submission by such Eligible Director of reasonable written substantiation for the expenses and approval by the SVP, Chief Human Resources Officer and the SVP, Corporate Secretary & General Counsel of the Company.

3.4 Compensation Limits.

Notwithstanding anything to the contrary in this Program, all compensation payable under this Program will be subject to any limits on the maximum amount of non-employee director compensation set forth in the Equity Plan, as in effect from time to time.

3.5 Expenses.

Eligible Directors will be reimbursed for their reasonable expenses to attend meetings of the Board and related committees and otherwise attend to Company business.

3.6 Amendment and Termination.

The Board may amend or terminate this Program at any time. The grant of Equity Awards will cease without any further action if the Equity Plan expires, or there are insufficient authorized and available Shares under the Equity Plan to cover the Equity Awards, and the Board does not designate a successor plan or arrangement pursuant to which the Equity Awards are to be made.

CERTIFICATION

I, Olivier Rabiller, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Garrett Motion Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
